PROFILE

Ambitious builder focused on the intersection of ecommerce, web technology, design and business systems. I turn unclear needs into practical digital experiences and enjoy exploring how connected technology, automation and intelligence can help businesses operate and grow more effectively. My approach starts with understanding the business problem before choosing the tool or solution.

FOCUS AREAS

Commerce	Digital products	Business systems
Ecommerce experiences, marketplaces, product catalogues and conversion-minded storefronts.	Responsive web interfaces, UI/UX exploration and front-end project building.	Interest in reporting, process improvement, automation and connected workflows.

SELECTED PROJECTS

Eden Mist

Ecommerce / Local project

An ecommerce-focused project included in my portfolio of commerce and digital experience work.

GitHub repository

Levi's Marketplace

Marketplace / Local project

A marketplace experience concept that explores product discovery and commerce-oriented interface design.

GitHub repository

Netflix Clone

UI/UX / Front-end project

A streaming interface clone created as a UI/UX and front-end implementation exercise.

Live site | GitHub repository

Mini Blog App

React project

A small React-based content publishing application.

GitHub repository

Todo by Zahin

React / Productivity project

A task management interface built as a React project.

CAPABILITIES & INTERESTS

Web & UX: Front-end projects, responsive website design, user interfaces and digital experiences.

Ecommerce: Ecommerce websites, marketplaces, product discovery, catalogues and conversion-minded journeys.

Business technology: Automation, reporting, data systems, integrations and AI-powered workflows.

Long-term direction: Building useful products and systems for ecommerce sellers and growing businesses.

WORKING STYLE

I value clear communication, practical thinking and continuous learning. I aim to understand the underlying problem, create a focused solution, and consider how it can evolve as the business grows.
